L.A. ARES "RATPAC" Online Classes, Videos, and Web Site

New!! Online Winlink Classes archived and available for Free at WaveTalkers.com

Winlink Basics for EMCOMM Virtual Classes:

- . Learn the basics of this powerful emergency communications tool in four, no-charge Zoom class sessions taught by four members of ARES Los Angeles — KK6DA, W0DHG, NR6V, W6AH.
- . Each 60–90–minute class will demo what you need to use Winlink over-the-air, and is accompanied by a series of video shorts you can review at your own pace.
- . All classes will be archived at WaveTalkers.com to view again and again.
- . If you can do email, you can do email by amateur radio with powerful built-in EMCOMM forms to assist your served agencies. Open to all licensed amateur radio operators.
- . Please feel free to forward to anyone or any group who will find learning the basics of Winlink a valuable experience from people who experiment with the future of EMCOMM frequently.
